Second-class postage paid at New York, New York, and at additional mailing offices.

The code and the copyright notice appearing at the bottom of the first page of an article in this journal indicate the copyright owner's consent that copies of the article may be made for personal or internal use, or for the personal or internal use of specific clients, on the condition that the copier pay for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. The per-copy fee for each article appears after the dollar sign and is to be paid through the Copyright Clearance Center, Inc. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. Such permission requests and other permission inquiries should be addressed to the publisher.

Subscription price (1980): $38.00 per volume. Postage and handling outside U.S.A.: $10.00. Please allow 4 weeks for change of address. Back volumes, microfilm, and microfiche are available for previous years. Request price list from publisher.

Claims for undelivered copies must be made no later than three months following month of publication. Missing copies will be supplied when losses have been sustained in transit and where reserve stock will permit.

JOURNAL OF RESEARCH IN SCIENCE TEACHING

Contents

Volume 16, 1979

Issue 1, January

Research Paper

- Application and Analysis of an Electronic Equivalent of Piaget's First Chemical Experiment: *Frederick P. DeLuca* 1

Research Reports

- The Laboratory-Investigative Approach to Science Instruction: *Karran P. Raghubir* 13
- Attitude Changes of Elementary Teachers According to the Curriculum Studied During Workshop Participation and Their Role as Model Science Teachers: *Dorothy Gabel and Peter Rubba* 19
- An Analysis of the Construct Validity of a Test of Higher Cognitive Learning in Introductory Chemistry: *Drew H. Wolfe and Henry W. Heikkinen* 25
- The Effects of a Mastery Learning Strategy on Achievement: *Charles Burrows and James R. Okey* 33
- Predicting Success in ISCS Level II: *Thomas E. McDuffie, Jr.* 39
- The Effect of the SCIS's "Relativity" Unit on the Child's Conception of Space: *Joseph Nussbaum* 45
- Validation of an Instrument and Testing Protocol for Measuring the Combinatorial Analysis Schema: *John R. Staver and Harold Harty* 53
- Students' Understanding of the Logic of Hypothesis Testing: *Richard J. Bady* 61
- Cognitive Levels and Linguistic Abilities of Elementary School Children: *Mohammed A. Kishta* 67
- Designing a Likert-Type Scale to Assess Attitude Toward Metrication: *Robert L. Shrigley and Cecil R. Trueblood* 73

Comments and Criticism

- Comments on DeLuca's Electronic Measurement of Logical Thinking: *James P. Hale* 79
- A Methodological Note on Rogers' "A Test of Piaget's Metric Proportionality Construct Using Ordering Theory": *Michael J. Renner* 83

Guidelines for Contributors 87

Issue 2, March

Research Papers

- Cue Utilization by Deaf Students in Learning Medical Terminology: *Barbara B. Braverman, Judy Egelston-Dodd, and Richard L. Egelston* 91
- Treatment and ATI Effects for Pupil Achievement and Preference Under Two Experimental Conditions of Teacher Control in Sixth Grade Science Classes: *Robert K. Crocker, Roda P. Amaria, Helen Banfield, and Douglas B. Sheppard* 105

Research Reports

- A Comparative Study of the Effectiveness of Process Skills Instruction on Reading Comprehension of Preservice and Inservice Elementary Teachers: *Richard L. Campbell* 123
- The Science Achievement of Third Graders Using Visual, Symbolic, and Manipulative Instructional Treatments: *Ellen W. Fuller, David H. May, and David P. Butts* 129
- An Evaluation of the Use of a Time-Series Single-Subject Design: *Victor J. Mayer and David K. Lewis* 137
- Restructuring Ability and Patterns of Science Achievement: *Leslie Wormack* 145
- Measuring the Differences between Teaching Preferences of Teacher-Centered and Student-Centered Teachers: *Frederick P. DeLuca and Gary E. Downs* 153
- A Comparative Study of the Effects of Two Teaching Strategies in an Activity-Centered Science Program on Middle School Students' Need-Affiliation and Teacher Dependency Behaviors: *Jose L. Vinelli, Charles C. Matthews, Dorothy M. Schlitt, Sudhir Abhyankar, and David J. McKee* 159

Position Papers

- Aptitudes and Science Instruction: *William G. Holliday* 167
- Why Should It Not Be So: The Second Fifty Years: *Robert E. Yager* 177

Issue 3, May

Research Paper

- Changes in Curiosity Behavior from Childhood to Adolescence: *Rita W. Peterson* 185

Research Reports

- Attitudes and Open-Mindedness of Undergraduate Students Enrolled in a Science Methods Course and a Freshman Physics Course: *Martha K. Piper and Linda Hough* 193
- An Analysis of Selected Biology Textbooks for the Treatment of Controversial Issues and Biosocial Problems: *Florence S. Levin and Joy S. Lindbeck* 199
- A Study of the Use of Diagnostic Testing in Teaching Basic Principles of Human Psychology: *Faith K. Brown and David P. Butts* 205
- Retention and Transfer of Selected Science Concepts in Elementary School Students: *Rodney L. Doran and Mbuya K. Ngoi* 211
- A Study of Factors Influencing Attitudes Toward Science of Junior High School Students: *James H. McMillan and Marcia J. May* 217
- The Effect on Student Achievement of Increasing Kinetic Structure of Teachers' Lectures: *William G. Lamb, Patricia Davis, Robert Leflore, Cicero Hall, J. Griffin, and Rudolph Holmes* 223
- Mixed-Ability Teaching—A Deterioration in Performance: *John A. Plewes* 229

- Avoidance of Science and Stereotypes of Scientists: *Lorelei R. Brush* 237
- Immediate and Delayed Effects of Training Preservice Secondary Science Teachers to Ask Questions of Varying Cognitive Levels: *Frank E. Crawley and Gerald H. Krockover* 243
- A Hoosier View of Ecological Attitudes and Knowledge: *A. W. Strickland and John R. Staver* 249
- A Study of Hierarchical Classification in Concrete and Abstract Thought: *Walter E. Lowell* . 255
- Adapted Suggestology and Student Achievement: *Donald A. Vannan* 263
- Science Teacher Types: A Study of Beliefs About the Importance of Specific Teaching Behaviors: *Willis J. Horak and Vincent N. Lunetta*..... 269

Comments and Criticism

- Sequence, Structure, and NP-Complete Problems: *James Carifio* 275

Issue 4, July

Research Paper

- The Relationships Between Intellectual Development and Written Responses to Science Questions: *John W. Renner* 279

Research Reports

- The Effects of Prior Knowledge of Learning Outcomes on Student Achievement and Retention in Science Instruction: *Karran P. Raghubir* 301
- Science Education for the Deaf: Comparison of Ideal Resource and Mainstream Settings: *Marcia C. Linn, Doris Hadary, Richard Rosenberg, and Robert Haushalter* 305
- Choices and Preferences of Science Subjects by Junior High School Students in Israel: *Reuven Lazarowitz and Rachel Hertz Lazarowitz* 317
- The Effects of Combined Advance Organizers and Field Experience on Environmental Orientations of Elementary School Children: *Michael P. Gross and Edward L. Pizzini* 325
- The Remedial Effect of a Biological Learning Game: *Abraham Blum* 333
- Experimental Results of Teaching First Grade Children Strategies for Nonvisual Seriation: *Michael J. Padilla and Edward L. Smith* 339
- Cognitive Development of College Freshmen: *C. Rodney Killian* 347
- Scientific Language and the High School Pupil: *P. P. Lynch, P. Benjamin, T. Chapman, R. Holmes, R. McCammon, A. Smith, and R. Symmons* 351
- Does Multiple-Choice Item Form Affect Student Assessment Results in Science?: *F. K. Abu-Sayf* 359

Comments and Criticism

- Comments on "The Acquisition of Propositional Logic and Formal Operational Schemata During the Secondary School Years": *David F. Treagust* 363
- Comments on "Science Instruction and Cognitive Growth in College Students": *Michael J. Padilla* 369
- A Comment on "The Influence of Pictorial Illustrations with Written Text and Previous Achievement on the Reading Comprehension of Fourth Grade Science Students" by James L. Thomas: *Van E. Neie* 371

Issue 5, September

Research Papers

- The Influence of Hands-On Science Process Training on Preservice Teachers' Acquisition of Process Skills and Attitude Toward Science and Science Teaching: *Joseph P. Riley, II* 373
- Differences in Science Teaching Attitudes Among Secondary Teachers, Principals, College Teacher Trainers, and Teacher Trainees: *Victor L. Willson and Jerry G. Horn* 385

Research Reports

- Science Teacher Participation in Curriculum Development: The Teacher's Point of View: *J. K. Olson* 391
- The Effects of Teaching the Biological Sciences Curriculum Study Elementary School Sciences Program on Attitudes Toward Science Among Elementary School Teachers: *Richard R. Tolman and James P. Barufaldi* 401
- Differential Sequencing Effects of Test Items on Children: *William G. Holliday and Louise A. Partridge* 407
- Effects of Introducing Practical Applications on the Preservice Elementary Teachers' Attitudes Toward Teaching Science: *Thomas R. Koballa and Charles R. Coble* 413
- Preservice Elementary School Science Teachers' Self Concerns: *Claude H. Cunningham and Jacob W. Blankenship* 419
- The Effects of Science Process Skill Instruction on Preservice Elementary Teachers' Knowledge of, Ability to Use, and Ability to Sequence Science Process Skills: *William J. Bluhm* ... 427
- Self-Concept and Perceptions of Role Behavior of High School Science Students and Teachers: New Assessment Instruments: *Kenneth D. Peterson and Duba Yaakobi* 433
- Proportional and Combinatorial Reasoning in Two Cultures: *Mohammed A. Kishta* 439
- The Transition to Formal Thought: *George J. Pallrand* 445
- Improving the Ability of Student Elementary Teachers To Propose Investigable Scientific Problems: *David J. Symington* 453
- A Comparision of Community College Students' Achievement and Attitude Changes in a Lecture-Only and Lecture-Laboratory Approach to General Education Biological Science Courses: *Walter L. Saunders and Donald H. Dickinson* 459
- The Effects of Achievement Diagnosis with Feedback on the Science Achievement and Attitude of University Students: *Russell H. Yeany, Michael L. Waugh, and Alison L. Blalock* 465
- The Effect of Physical and Mental Practice of Psychomotor Skills on Chemistry Student Laboratory Performance: *Warren F. Beasley* 473

Issue 6, November

Position Papers

- The Reception Learning Paradigm: *Joseph D. Novak* 481
- Hierarchical Learning Paradigm: *Howard L. Jones and J. Michael Russell* 489
- The Developmental Learning Paradigm: *Anton E. Lawson* 501
- What are the Implications of Paradigm-Based Research For Science Education Research?: *Carl F. Berger* 517
- The Impact of Paradigm-Based Research On Classroom Practice: *Rita W. Peterson* 523

Research Papers

- The Development and Construct Validation of a Group-Administered Test of Formal Thought: *John R. Staver and Dorothy L. Gabel* 535
- Assessing and Analyzing the Performance of Students in College Science Laboratories: *William C. Kyle, Jr., John E. Penick, and James A. Shymansky* 545
- Relative Effects of Modeling on the Acquisition of Wait-Time By Preservice Elementary Teachers and Concomitant Changes in Dialogue Patterns: *Linda R. Deture* 553

Research Reports

- Essay Versus Multiple Choice Tests: *Gordon Warren* 563
- Cognitive Preferences and Modes of Instruction in High School Chemistry: *Ruth Ben Zvi, Avi Hofstein, Yetty Salomon, and David Samuel* 569
